DIRECTORY OF HOUSEHOLDERS
OCCUPANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES
INCLUDING A COMPLETE
STREET AND AVENUE GUIDE
1940

COPYRIGHT, 1940, BY R. L. POLK & CO.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenants. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabtical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol 🔔 preceding the name denotes householders and places of business having telephones.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of Sacramento Directory Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

SACRAMENTO, CALIFORNIA

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

ASSN. OF NORTH AMERICAN DIRECTORY PUBLISHERS
PRO BONO PUBLICO
ORGANIZED 1898

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

Locating Missing Heirs - Finding Lost Persons

This is only one of the many offices that the modern directory successfully fills.

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.
